Education

Graphic Era University, Dehradun

B.Tech in Computer Science & Engineering

2022 – 2026

CGPA: 8.2/10

St. Mary's Sr. Sec. School, Jwalapur

2021 – 2022

Class XII

78.8%

Work Experience

Frontend Development Intern

Jul 2025 – Aug 2025

PearlThoughts — Remote

- Designed and implemented **responsive web UIs** with HTML, CSS, and JavaScript.
- Improved site performance and ensured cross-browser compatibility.
- Collaborated in **Agile sprints** to deliver optimized **UI/UX** with mobile-first layouts.

Projects

Movie Recommendation System

- Deployed a **content-based recommendation engine** using Python, Pandas, NumPy, and cosine similarity, achieving 85% recommendation accuracy.
- Integrated **real-time data** via OMDb API and applied feature engineering, boosting personalization by 30%.
- Optimized recommendation pipeline, reducing response time by 40% and improving user engagement.
- Ensured scalability by designing a **modular system** using larger datasets and hybrid recommendation approaches.

Resume-Job Matcher

- Streamlined **resume screening**, cutting recruiter shortlisting time by 60% across more than 200 job listings.
- Launched an **NLP-based engine** that enhanced resume-job matching accuracy by 22% in comparison to traditional keyword-only approaches.
- Established **candidate ranking**, improving shortlisting precision and placement rates, with the capability to process up to 300 applicants each day.
- Created **customized resume feedback**, enabling candidates to boost their job-fit scores by 30%.

Food Ordering Web App

- Created a **ordering platform** featuring cart management, GST computation, and automated delivery fee processing, facilitating a streamlined transaction workflow.
- Applied **responsive design**, guaranteeing a consistent user experience on both desktop and mobile devices, which enhanced accessibility by 40%.
- Improved the checkout process, leading to a 25% decrease in order completion time and boosting overall customer satisfaction.
- Developed a scalable architecture to accommodate **multiple user sessions**, ensuring efficient order placement during busy periods.

Technical Skills

Languages: Python, C++, C, JavaScript, HTML, CSS

Frameworks: Pandas, NumPy, Matplotlib

Tools: Excel, PowerPoint, MySQL

Platforms: PyCharm, Jupyter Notebook, Visual Studio Code

Additional Skills: Project Management to ensure consistency across deliverables.

Certifications

Data Analyst Certification

- * Certified in **data interpretation & analytics** (May 2025).

Prompt Engineering for Developers — DeepLearning.AI & OpenAI

[View Credential](#)

- * Learned advanced **prompt design techniques** for AI model optimization (Jul 2025).

Data Science Simulation — Forage x British Airways

- * Analyzed lounge eligibility and customer behavior (Jun 2025, Code: v8SDP7sybsuBLhLMP).

Data Visualization — Forage (TATA Group)

- * Built dashboards and visual reports using effective **data storytelling techniques** (Code: 7JmyJ5CGKvdrz6A9r).
