OVERVIEW

Software Developer with a solid foundation in Data Structures, Web Development, and System Design. Passionate about building scalable systems with clean, maintainable code.

EXPERIENCE

Software Developer Engineer 1

InsuranceDekho

May 2025 - Present

Gurgaon, India

- Built scalable REST APIs using NestJS (Node.js) and MongoDB as part of the Employee Benefits team.
- Developed core features for a B2B insurance platform that streamlines communication between HRs and insurance providers.
- Designed and implemented a batch processing system to efficiently validate and process large datasets asynchronously using RabbitMQ and scheduled CRON jobs.
- Contributed backend support to Lume, an employee-facing app for viewing policies and filing claims.
- Focused on writing modular, performant code while collaborating cross-functionally to deliver production-ready features.

INTERNSHIPS

Software Developer Intern

Josh Technology Group

Jan 2025 - Mar 2025

Gurgaon, India

- Built RESTful web applications with Django and DRF, focusing on API design and authentication.
- Developed responsive UIs using TypeScript, React, and Redux.
- Optimized API performance by analyzing request/response cycles with Postman and Django debug tools.

Java Instructor Intern

Coding Blocks

Jul 2024 - Aug 2024

Delhi, India

- Mentored 200+ students in Data Structures and Algorithms in JAVA, covering Arrays, Linked Lists, Backtracking, and Trees.
- Helped improve student rankings by 40% in coding competitions.

EDUCATION

Bachelor of Technology (B.Tech) – Bhagwan Parshuram Institute of Technology

2021 - 2025

Electronics and Communication Engineering (ECE)

Minor specialization in Computer Science Engineering (CSE)

CGPA - 8.417

SKILLS

Technical Skills

Data Structures and Algorithms, OOPs, System Design(HLD, LLD)

Programming Languages:

Java, Python, JavaScript, TypeScript

Web Technologies

Node.js, Express.js, React.js, Nest.js, Django, DRF, RESTful APIs, RabbitMQ, HTML, CSS

Databases and other skills

MongoDB, SQL, PostgreSQL, Git and GitHub, Jira, BitBucket, Beekeeper, Postman, VS Code

Soft Skills

Problem-Solving, Collaboration, Teamwork, Time Management, Attention to Detail

PROJECTS

SmartStudy – Node.js, Express.js, MongoDB, React, Redux, Material UI

[View](#) , [Github](#)

- Built a MERN-based study planner with auto-scheduling using the 1-2-4-7 spaced repetition technique.
- Implemented secure login using Passport.js (local strategy) and sessions.
- Developed a dynamic scheduler to auto-generate revision dates and track revision history.

GitHub Data Fetcher – React.js, Redux, Typescript

[View](#) , [Github](#)

- Built a responsive GitHub Dashboard using React.js, TypeScript, and GitHub APIs.
- Secured data access with GitHub PAT and managed state via Redux Toolkit.
- Styled UI with MUI and enforced code quality using Husky, ESLint, and Prettier.
