

EDUCATION

Graphic Era Hill University
Bachelor of Technology; GPA: 7.14
Sri Chaitanya Techno School
Intermediate; Percentage: 89.6
Surendranath Centenary School
High School; Percentage: 83.8

Dehradun, India
August 2022 - June 2026
Visakhapatnam, India
April 2020 - March 2021
Ranchi, India
April 2018 - March 2019

SKILLS SUMMARY

- **Languages:** Python, SQL, Java, C++, C, JavaScript, HTML, CSS, Kotlin
- **Frameworks:** Pandas, Numpy, Scikit-learn, Matplotlib, Keras, TensorFlow, React, MVVM Arch.
- **Tools:** Power BI, Excel, PowerPoint, Tableau, MySQL, SQLite, Android NavGraph, Ktor
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code, IntelliJ IDEA, Android, AWS
- **Additional Skills:** Data scraping, Model Deployment, Project Management to ensure consistency across deliverables.
- **Data Analysis & Visualization:** Data Analysis & Visualization, Exploratory Data Analysis, Model Evaluation

WORK EXPERIENCE

FRONTEND DEVELOPMENT INTERN | PEARLTHOUGHTS | [LINK](#)

July 2025 - August 2025

- Developed frontend components for a doctor appointment app, focusing on user-friendly design and smooth functionality.
- Implemented features including doctor profiles, appointment booking, patient registration, and search filters using HTML, CSS, and JavaScript frameworks.
- Integrated APIs to enable real-time doctor availability and seamless appointment scheduling.
- Performed cross-browser testing and debugging to deliver a responsive and reliable user experience.
- Participated in agile development processes including daily stand-ups, code reviews, and sprint planning.
- Utilized Git for version control and maintained clean, reusable code components.

PROJECTS

Carbon Footprint Tracker

April 2025 - May 2025

- Built a full-stack platform enabling 500+ users to track and reduce daily CO₂ emissions.
- Achieved a 25% increase in user engagement via interactive dashboards and real-time charts.
- Generated personalized carbon reduction tips, resulting in up to a 15% drop in users' average emissions within 1 month.
- Enabled users to export and share emission reports in multiple formats, increasing report downloads by 40%.

Resume-Job Matcher

December 2024 - January 2025

- Automated resume screening, reducing recruiter shortlisting time by 60% for 200+ job postings.
- Deployed an NLP-based engine that increased resume-job match precision by 22% compared to keyword-only methods.
- Ranked candidates, boosting shortlisting accuracy and placement rates, with up to 300 applicants processed daily.
- Supported candidates in improving job-fit scores by 30% on tailored resume feedback.

Agriculture Practices using AI

September 2024 - October 2024

- Designed a system used by 100+ farmers to predict crop yield and recommend optimal crops with 87% model accuracy.
- Enhanced crop disease detection with CNNs, achieving 92% disease classification precision.
- Provided personalized insights, resulting in a 20% improvement in yield prediction accuracy versus prior year benchmarks.
- Streamlined farm data input and result visualization, reducing user effort by 40%.

CERTIFICATES

Preparing Data for Analysis with Microsoft Excel (Microsoft) | [CERTIFICATE](#)

June 2025

- Advanced use of Excel for data cleaning, analysis, visualization, and reporting.
- Proficient with Excel formulas, VLOOKUP, IF, and complex datasets.

Data Science Job Simulation (British Airways) | [CERTIFICATE](#)

May 2025

- Modelled lounge eligibility for the passengers at Heathrow Terminal 3.
- Predicting customer buying behaviour during flights for better customer experience.

Learn Machine Learning & AI (Udemy) | [CERTIFICATE](#)

January 2025

- Hands-on projects: deep learning, object identification, fraud detection, end-to-end ML pipeline.
- Deployed models with Python, Keras, TensorFlow, and Scikit-learn.
