EDUCATION

Graphic Era Hill University

B.Tech in Computer Science Engineering — GPA: 8.77/10.0

Dehradun, Uttarakhand

2021 – 2025

TECHNICAL PUBLICATIONS

Semantic Similarity Analysis Using FastText | *IEEE Xplore (10.1109/ICIOT59861.2024.10731025)*

- Achieved 92% accuracy in semantic similarity detection using FastText embeddings, outperforming Word2Vec by 7% and TF-IDF by 11% in benchmark tests
- Optimized text processing pipeline reducing inference time by 35% compared to BERT-base models through dimensionality reduction techniques
- Presented findings on out-of-vocabulary word handling at IEEE ICIOT 2024 conference

TECHNICAL PROJECTS

Full-Stack E-commerce Platform | *MERN Stack*

Dec 2023

- Engineered REST APIs with 95ms average latency using Node.js & Express & application featuring product listings, shopping cart, order management, and user authentication.
- Implemented JWT authentication serving 20+ registered users with Redis session management
- Reduced cart abandonment by 18% through persistent storage implementation and checkout flow optimization

Twitter Sentiment Analyzer | *Python, Scikit-learn*

Mar 2024

- Deployed Random Forest classifier achieving 85% accuracy on 50,000+ tweet dataset (F1-score: 0.83)
- Architected streaming pipeline processing & Visualized sentiment trends with word clouds and interactive graphs, providing insights for 10+ cryptocurrency topics enabling data-driven decision-making.

Embedding Compression Framework | *TensorFlow, UMAP, Python*

Feb 2024

- Compressed 300-dim FastText vectors to 64-dim while maintaining 93% semantic similarity scores
- Reduced model storage requirements by 78% through PCA approach
- Integrated visualization tool enabling 2D/3D exploration of 100,000+ word embeddings

TECHNICAL SKILLS

Languages: C++ (Proficient), Python (Proficient), JavaScript, Java, SQL

Frameworks & Tools: React, Node.js, Express.js, TensorFlow, Scikit-learn, Git

Databases: MongoDB, MySQL, Redis

Coursework: Data Structures, Algorithms, DBMS, Computer Networks, OOPS

ACHIEVEMENTS

- Completed a self-paced Accenture North America Job Simulation: Data Analytics and Visualization virtual internship. Practiced data cleaning, modeling, visualization, and storytelling while developing skills in project planning, data analysis, and client presentations.
- Solved 500+ problems on LeetCode and multiple other platforms enhancing problem-solving skills.)
- Completed courses in Web Development and Generative AI enhancing expertise in modern technologies and development practices.
- Successfully completed an 8-week Salesforce Developer Virtual Internship, gaining hands-on experience with Salesforce fundamentals, Apex programming, process automation, Lightning Web Components, and API development.
- Hackathon Finalist: GEHU CodeStorm 2024 - Ranked 4th among 75+ teams in algorithm competition

LEADERSHIP EXPERIENCE

- Shikhar Innovation Club: Led team of 8 to organize cybersecurity workshop for 150+ participants
- Tech Mentor: Conducted 12+ sessions on web development fundamentals for junior students
- Volleyball Team Captain: Won inter-university championship 2023.
