SKILLS SUMMARY

- **Languages:** Java (Proficient), C, C++, HTML5, CSS , JavaScript , SQL, Python
- **Frameworks:** Django, Spring, SpringBoot(Microservices), NextJs, Elastic
- **Tools:** Git, Github, MySQL
- **Platforms:** Linux, Web, Windows
- **Soft Skills:** Strong communication & interpersonal skills , Leadership, Flexibility, Teamwork, Active Listener, Time Management, Problem-Solving & Debugging, Decision Making, Cooperation.

EXPERIENCE

- **SDE 1** Bengaluru, Karnataka
BeepKart Jun 2024 - Current
 - **Developed Logistics Workflow** : Designed and implemented a comprehensive logistics workflow for the company, overseeing vehicle pickups from customer locations to the hub. I developed a seamless process to ensure a hassle-free journey while maintaining accurate records, optimizing the entire transportation flow.
 - **Optimized Production-Level Testing with Test Agents** : Streamlined the testing process by enabling full flow testing in a production-like environment. Previously, testers couldn't raise fake tranches in production due to auditing concerns. I introduced test agents that allowed QA teams to conduct comprehensive tests without affecting production data, ensuring a smoother, more reliable testing process.
 - **Automated B2B Payments** : Streamlined the B2B payment process through automation and Ensured secure and reliable transactions, enhancing trust and satisfaction among business partners.
 - **Streamlined Vehicle Procurement with Selective Automated Dealer Payments** : Modified vehicle Procurement workflow to selectively allow automated payments for dealer transactions.
- **Software Engineer Intern** Bengaluru, Karnataka
BeepKart Oct 2023 - May 2024
 - **Comprehensive Self-Serve Portal for Enhanced Administrative Control** : Led the full-cycle development of a self-serve portal aimed at streamlining administrative functions, including user management (addition, removal), hierarchical structuring of users, and the assignment and removal of reporting managers.
 - **Analyzed admin workflows for improved user experience** : Conducted in-depth analysis of admin workflows, identifying pain points and requirements for a streamlined user experience.
 - **Cross-functional collaboration for goal alignment** : Collaborated cross-functionally with UX/UI designers, product managers, and system administrators to align development with company goals.
 - **Contributed to Java development and collaborated with analytics team** : Played a pivotal role in Java development and collaborated closely with the analytics team to facilitate dynamic pricing strategies for both B2B and C2B interactions on the app platform.

PROJECTS

- **Fitness Management System(Django, ReactJs) Url** : : Developed a Fitness Slot Booking System with a Django backend and React frontend, enabling users to view and filter booked classes by type and date. Implemented pagination for handling large datasets, enhancing the user experience and ensuring seamless data management.
- **Youtube Transcript Summarizer (Python,Google Collab,YouTube Transcript Api) Url** : : Developed the project on Google Collab and utilized the YouTube Transcript API and wrote a Python script to efficiently summarize the retrieved data and alter the sentences.Imported Hugging Face Transformer that provides APIs and tools to download state-of-the-art pre-trained models and further tune them to maximize performance.
- **Food Delivery Application(Html,Css,JavaScript) Url** : : Designed an app offering comprehensive information on food items available for order from nearby restaurants, showcasing my proficiency in web development and UI design.

CERTIFICATIONS

- **Microsoft Azure Fundamental AZ-900** : Credentials Link
- **Introduction to Data Science Course on Cognitiveclass.ai powered by IBM Developer Skills Network:**
- **Received Certificate of Merit for passing Artificial Intelligence Assessment by Accenture.:**
- **Goldman Sachs (Crack leaked password database) : Fintech Engineering Virtual Experience Program.:**

EDUCATION

- **Graphic Era University** Dehradun, India
Bachelor of Technology - Computer Science And Engineering; CGPA: 8.50 July 2020 - May 2024
- **Dr Virendra Swarup Public School** Kanpur, India
Class 12th ISC Board (Intermediate) : 90.00% July 2020

HIGHLIGHTS

- Secured 599 rank globally and College rank 8 out of 100000+ participants in Coding Ninjas Contest - CodeKaze.
- Secured 669 rank globally out of 20000+ participants in Leetcode Biweekly Contest 104.
- Top 5% LeetCode(Knight).
- Ranked among the top 5% of BGMI players, achieved peak performance and multiple victories in Tier 2 customs, and reached the India Close Encounter stage.
- Utilized GenAI and prompt engineering during the hackathon organised at BeepKart to filter and identify the top three positive and negative reviews of the company from Google Play.
